Come celebrate with us on Wednesday 3/21/2018 for a one day event celebrating

WORLD DOWN SYNDROME DAY

March 21, 2018 marks the 12th anniversary of World Down Syndrome Day, a global awareness day which has been officially observed by the United Nations. Why 3.21? The date signifies the uniqueness of the triplication of the 21st chromosome which causes Ds. Each year the voice of people with Down Syndrome, and those who live and work with them, grows louder. Please help spread awareness for Down Syndrome by sharing this day with family and friends.

FCDSN would like to show its appreciation by hosting the fun event below
